

GET MORE COVERAGE TO SUPPORT HERBICIDE UPTAKE WITH STRIKELOCK® ADJUVANT.

# BUILT FOR IT.

Specifically designed for oil-loving herbicides, StrikeLock® adjuvant helps melt away the protective leaf cuticles of tough weeds so herbicides can penetrate more quickly and provide better control.

Certain conditions can make it more difficult for herbicides to enter. No matter the challenge, StrikeLock adjuvant is built for it.

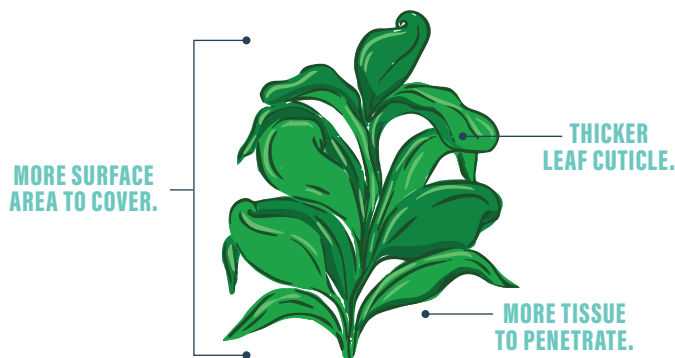

## WEEDS IN HOT, DRY CONDITIONS

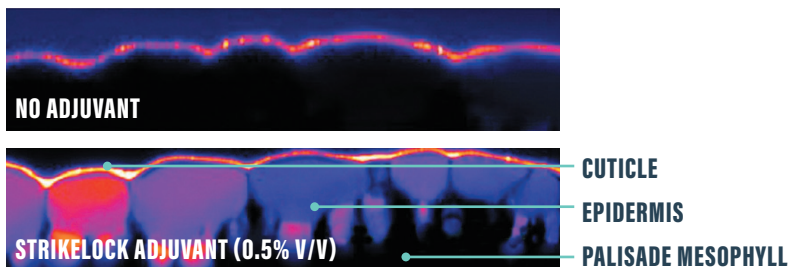

## WEEDS IN COOL SPRING AND FALL CONDITIONS

## LARGER WEEDS

## STRIKELock ADJUVANT IN ACTION

COLOR IS FLUORESCENT DYE APPLIED TO A LEAF SURFACE WITH AND WITHOUT STRIKELOCK. StrikeLock drives the fluorescent dye to the palisade mesophyll.
