

GET INCREASED HERBICIDE CONTROL BY CUTTING THROUGH PROTECTIVE PLANT BARRIERS WITH SUPERB® HC ADJUVANT.

# BUILT FOR IT.

When stressful conditions arise, plants pull out their defenses, making it more difficult for anything to penetrate their surface, including herbicides. As weeds get larger, they also get stronger and more tolerant to intruders trying to enter. Fortunately, Superb HC® adjuvant is built to cut through those protective plant barriers and help you eradicate troublesome weeds.

## IF YOU'RE FACING ANY OF THESE CHALLENGES, TURN TO SUPERB HC ADJUVANT:

- DRY CONDITIONS.
- WEEDS AT MAXIMUM LABELED WEED HEIGHTS.
- HARD-TO-CONTROL WEED SPECIES.

### WITHOUT SUPERB HC ADJUVANT

- Minimal penetration.
- Minimal coverage and spreading.

### WITH SUPERB HC ADJUVANT

- Increased penetration.
- Increased coverage and spreading.
- Improved weed control.
