**PRECAUTIONARY STATEMENTS**

Avoid breathing mist or spray. Use only outdoors or in a well-ventilated area.

**FIRST AID**

Have the product container and SDS with you if calling a poison control center or going for treatment.

**IF INHALED:** Remove person to fresh air and keep comfortable for breathing. Call a poison control center or doctor for treatment advice if you feel unwell.

**IF IN EYES:** Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes, immediate medical attention is required.

**IF SWALLOWED:** Rinse mouth out with water. Do not give anything to drink. Keep at rest. Do not induce vomiting without medical advice. Consult a physician if necessary.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing and shoes immediately. Wash skin immediately with soap and water. Use mild soap if available. If skin irritation occurs, seek medical advice/attention.

**In case of medical emergency, call toll free 1-877-424-7452**

**STORAGE AND DISPOSAL INFORMATION**

**STORAGE:** Store in a cool, well-ventilated place away from incompatible materials: strong oxidizing agents and concentrated aqueous solutions of strong bases. Keep in original container and tightly closed. Store locked up. Do not reuse container. Do not store with food, feed, or other materials to be used or consumed by humans or animals. Do not contaminate water supplies. **DO NOT FREEZE. Shake well before use.**

**DISPOSAL:** Dispose of contents in accordance with Federal, state and local regulations. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the web page at [www.acrcycle.org](http://www.acrcycle.org). Triple rinse (or equivalent) during mixing and loading.

**FOR CHEMICAL EMERGENCY, SPILL, LEAK, FIRE, EXPOSURE, OR ACCIDENT, CALL: CHEMTREC 1-800-424-9300.**

**NON-AMS WATER CONDITIONER +  
NONIONIC SURFACTANT +  
DRIFT REDUCTION AGENT (DRA) +  
VOLATILITY REDUCTION AGENT (VRA)**

**PRINCIPAL FUNCTIONING AGENTS:**

Proprietary blend of potassium acetate, guar, beta-hydroxy tricarballylate, alkyl ethanaminium salt,  
and alcohol alkoxylate ..... 34.7%  
Constituents Ineffective as Spray Adjuvants ..... 65.3%

TOTAL ..... 100.0%

All ingredients are exempt from the requirements of a tolerance in 40 CFR 180.

**KEEP OUT OF REACH OF CHILDREN  
WARNING**

Causes serious eye irritation.

**Net Contents: 2.5 Gallons (9.46L)**

ITEM # 1718272

#### GENERAL INFORMATION

OPTIFY 4X is specifically designed to maximize pesticide performance when applying pesticides through nozzles that are classified to produce extremely-coarse and ultra-coarse droplet spectrums.

OPTIFY 4X manages hard water antagonism of glyphosate using a dual-action non-ams water conditioner that does not contribute to volatility of dicamba. The included surfactant provides enhanced spreading, penetration, and uptake to help improve weed control. Easy-to-handle guar-based drift reduction additive (DRA) is approved for many tank mixtures. Approved as a volatility reducing agents (VRA) to further reduce potential dicamba volatility.

#### DIRECTIONS FOR USE

Prior to use, read and follow all directions on this label and on the label of the pesticide being used. The pesticide manufacturer's label for specific usages and restrictions has precedence over DIRECTIONS FOR USE referred to on this label. Tank mix combinations must show that OPTIFY 4X is approved as an adjuvant and/or a DRA and/or VRA before being used as such. This information is available on the respective herbicide tank mix website.

HERBICIDE	MINIMUM APPROVED RATE AS DRA and VRA
XtendiMax® Herbicide with VaporGrip® Technology	14 pints per 100 gals (1.75% v/y)
Engenia®	14.8 pints per 100 gals (1.85% v/v)

#### MIXING INSTRUCTIONS

Fill spray tank half full with water and start agitating. While the water is agitating, add OPTIFY 4X to the spray tank first. Follow specific tank mix filling and mixing information provided on the herbicide label. Refer to other pesticide labels for additional recommendations or precautions.

Before mixing pesticides with OPTIFY 4X, conduct a jar test to determine compatibility. DO NOT use OPTIFY 4X through a direct injection system.

#### NOTICE OF WARRANTY

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
