Class Act® Formula Designed for Flexibility

Class Act® Flex water conditioner has a higher ratio of CornSorb® additive and less AMS load and more non-ionic surfactant compared to Class Act® NG® for areas where hard water is less of a concern. Specially formulated to meet the requirements for glyphosate

FEATURES AND BENEFITS

based herbicides.

- Easy-to-use formulation in a convenient premix.
- Specifically designed premix to add more surfactant and less AMS for areas that do not require as much AMS.
- Contains CornSorb® additive which increases uptake and speed of herbicide action.
- Pre-dissolved liquid AMS – no nozzle plugging and sedimentation.
- Lower use rates, less product to handle and store.
