

Exuro[®]

By WINFIELD UNITED

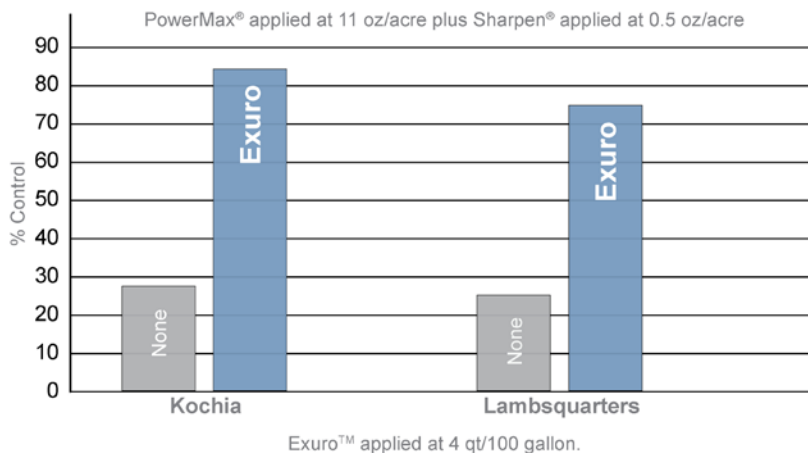

Vegetable Oil Concentrate Designed for Burndown and Desiccation.

A modified vegetable oil concentrate that increases herbicide absorption and penetration into the plant for tough burndown and desiccation applications.

FEATURES AND BENEFITS

- Delivers a more complete burndown on tough to control weeds.
- Promotes herbicide absorption into the leaf and rapid penetration into the plant so that you can expect a more complete kill.
- Exclusively designed and labeled for burndown and desiccation to help ensure that tough-to-kill weeds die.

Exuro[®] with Roundup[®] PowerMax[®] + Sharpen[®]

Source: North Dakota State University, 2015
