

Rugged®

By WINFIELD
UNITED

Novel 2,4-D Acid Formulation that Delivers Weed Control in Many Environmental Conditions.

Rugged® herbicide combines the best of both ester and amine 2,4-D formulations delivering excellent broadleaf weed control, low volatility, great tank mixability and minimal crop response.

FEATURES AND BENEFITS

- Consistent control of broadleaf weeds, in most environmental conditions.
- Compatible with UAN fertilizer and IPA and K⁺ glyphosates
- Contains an odor masking agent and when applied, masking 2,4-D smell.

Rugged® provides dependable control in cooler conditions

Rugged® herbicide provides consistent control of broadleaf weeds, in a wider range of environmental conditions. As an acid formulation, Rugged® can work even when the weed is not actively growing, such as in cooler conditions. This makes Rugged® a great option for fall burndown applications.

Pre-Plant Timings for Corn and Soybeans

Corn	Days to Planting
Less than 1 pint	7
1-2 pints	14
Soybeans	Days to Planting
Less than 1.1 pints	7
1.1-2.2 pints	15

USE RATE†

Rates are dependent on a variety of factors – see label for use rate instructions.

ACTIVE INGREDIENTS†

2,4-dichlorophenoxyacetic acid* – 34.8%
Other Ingredients – 61.6%
Total – 100%
*Contains 3.49 pounds of 2,4-D acid per gallon

PACKAGING

2 x 2.5 gallon jugs
Mini-bulk
