

Superb[®] HC

By WINFIELD
UNITED

High Performance - High Surfactant Crop Oil Concentrate

Superb[®] HC adjuvant can be used at half the use rate as traditional crop oil concentrates. It contains CornSorb[®] additive for increased pesticide uptake and performance, especially during tough growing conditions.

FEATURES AND BENEFITS

- Designed for use with herbicides that require a COC
- Unlike some COCs – Superb[®] HC adjuvant is compatible with glyphosate
- Improves herbicide control at half use rates of standard COCs
- Contains CornSorb[®] additive for improved herbicide uptake

The Power of CornSorb[®] Additive

Superb[®] HC adjuvant includes CornSorb[®] additive, which has been proven to increase humectancy for droplet retention leading to improved uptake of herbicides for better performance and less herbicide lost to environmental factors like evaporation.

Application Rates

Generally used at 0.5 gallon per 100 gallons of spray solution.
For spray volumes below 12.5 gallons per acre use Superb[®] HC at 1 pint per acre.

Label Rate for Oil Adjuvant	Equivalent Superb [®] HC Adjuvant Rate
1 quart per acre	1 pint to 1 quart
1 gallon per 100 gallons	0.5 to 1 gallon per 100 gallons

USE RATE[†]

0.5%-1% v/v or half the use rate of conventional crop oil concentrates

ACTIVE INGREDIENTS[†]

Phytobland paraffinic oil, high fructose corn syrup, polyoxyethylene sorbitan fatty esters: 92%
Constituents ineffective as spray adjuvant: 8%
TOTAL: 100%

PACKAGING

2 x 2.5 gallons
