

Tundra[®] Supreme

By WINFIELD UNITED

Fast Acting, Long Lasting

Tundra[®] Supreme is an innovative, proprietary formulation developed by WinField[®] United that includes two high-performing active ingredients, bifenthrin and chlorpyrifos, for effective insect protection and residual control. Tundra[®] Supreme has been proven to deliver outstanding control of a broad spectrum of insects, including aphids, spider mites, and many corn insects.

FEATURES AND BENEFITS

- Two modes of action for resistance prevention and outstanding control
- Flexible application options.
 - Apply by ground, air or chemigation and is compatible with many other pesticides, liquid fertilizers and MAX-IN[®] nutrients
- Effective, season-long control with long-lasting residual protection
