

Valcheck[®] Foam Marker

Adjuvant

Foam Marking Agent

Convenient, economical formulation that is easy to use

Features & Benefits

- Contains a versatile blend of high-foaming surfactants and foam stabilizing agents
- Provides a reliable way to identify where crop inputs have been applied to help reduce double coverage and missed applications
- Impervious to water hardness up to 1,000 ppm, which means more consistent and reliable results without concern for changing water conditions. Slightly affected by 1,000-2,000 ppm hardness
- Highly concentrated, non-flammable formulation
- Very low alcohol content; contains no butanol
